native seed co.

Native Seed Co. is the only seed supplier in Canada that guarantees germination. If you get a seed that doesn't germinate, simply follow the instructions on our Seed Return Form to get it replaced quickly:

- Contact us at [canadianhealthbrands@gmail.com](mailto:canadianhealthbrands@gmail.com) and let us know that you're returning a seed, what strain it is, and whether it's one or more seeds that didn't pop. (This is different than seeds not being female - we do NOT guarantee sex of seeds.) In your e-Mail message, please include your name, phone number, and full mailing address, including the postal code so we know where to send your replacement. Requests made for seed replacement with missing information will result in delay or the inability to send out replacement seeds.
- Simply put the seed back in the **original blister packaging it came in** and mail it back to us at 909 Pickering Beach Road, Ajax, ON L1S 1G3, Attention: Seed Returns
- Once we receive your return, we will immediately mail out a replacement to the address requested in the return.

Please note that this replacement policy is at the sole discretion of the company and abuse of this policy will not be tolerated. We retain the right to refuse seed replacement if we suspect abuse is at play. SEEDS MUST BE RETURNED IN ORIGINAL PACKAGING.
